Check-up

Winters always play havoc with automobiles, say servicemen, who add, "and the past winter did the greatest damage."

A spring tune-up will involve inspection of, and needed attention to, the cooling system, ignition and battery, fuel system, motor, lights, lubrication, wheels and steering, driving system, and tires.

Cheese Sauce for Asparagus

Fresh asparagus will be appearing in quantities with increasing warmer days. It makes a fine luncheon or supper main dish when cooked tender and served with a creamy cheese sauce on toast. Add hard-cooked eggs sliced to increase the protein. An easy way to prepare fresh asparagus is to stand tied bundles of stalks in a tall kettle, add boiling water and allow the tender tips to cook by steaming.

Creamy Cheese Sauce.

Melt 2 tablespoons butter or margarine in saucepan and stir in 2 tablespoons flour. Gradually add 1 cup milk, stirring constantly and cook until thickened and smooth. Add 1/2 teaspoon salt, 1/4 teaspoon pepper and 1/2 cup grated

cheese. Stir over low heat until cheese is melted. Serve hot.

Easy way to prepare prunes in summer is to fill a quart jar with tenderized prunes, add boiling water to cover, and put on the jar lid. Keep in the refrigerator for a few days and then serve.

New Meat Dishes**

Wise cooks save recipes that suggest new ways to prepare meat dishes.

Veal in Sour Cream.

Have 1 pound veal cut about 1/2 inch thick. Cut in serving pieces, dredge in mixture of flour, salt and pepper. Melt 4 tablespoons shortening in skillet, add veal and saute slowly until browned. Remove from pan; keep warm in oven. Add 2 teaspoons flour to drippings in skillet, blend well and gradually stir in 1 1/2 cups sour cream, 4 tablespoons drained sweet pickle relish and salt and pepper to taste. Heat thoroughly. Pour cream pickle sauce over the browned meat. It is excellent served with hot buttered noodles.

Texas Hash.

Cook 2 onions, sliced, and 2 green peppers, cut fine, in 3 tablespoons fat until onions are yellow. Add 1 pound ground meat and cook until browned. Add 2 cups canned tomatoes, 1/2 cup uncooked rice, 1 teaspoon chili powder, 2 teaspoons salt and 1/4 teaspoon pepper. Mix well. Pour into large greased casserole, cover and bake in moderate oven 45 minutes.

Uncooked spaghetti, macaroni or noodles may be used instead of rice.

A simple graphite pencil can be used to lubricate stubborn zippers just by rubbing the lead up and down the teeth several times. A pencil rubbed on the prongs of an electric plug will make these connectors easier to pull out.

If you have trouble getting ice trays out of the refrigerator, fold a piece of wax paper under them when placing in the freezing unit. They will then slide right out. Wax paper under cookies on a baking tin will enable you to lift them out easily, without breaking or sticking.

The best way to oil your door lock is to put the oil right on the key and turn it several times in the lock. For a door with squeaking or stubborn hinges, lubricating oil is best applied with a feather.

The oil industry is interested in our sticking problems, because it helps solve them. Paraffin, wax paper, lubricating oil—and sometimes even pencils—are made from petroleum derivatives.

ILLINOIS FAIR PLANS CONTESTS IN HOME FLOWER DISPLAYS

SPRINGFIELD, Ill. — Floral decorations for different occasions ranging from informal luncheons to Christmas dinners will be displayed in competitive classes at this year's Illinois State Fair, Aug. 10 through 19. A total of \$1638 in cash prizes will be awarded.

Because of the increasing attention Illinois women are giving to flower displays and to flower gardens, the State Fair has modeled its program to include the largest flower and garden show in its history. Radio Hall, on the southeast corner of the fairground, has been converted into Floral Hall and will now be listed under that title.

A new set of rules and classifications has been devised for the show. The new classes in arrangements have been worked out to provide emphasis on floral decorations to fit the present mode of living. These include buffet table, informal luncheons and dinners, Christmas dinner, holiday tables and a special feature for youths, a buffet table entitled "After the Game."

Another new feature will be mantle displays shown on actual mantles, and holiday decorations for doors on actual doors. There will also be a special educational exhibits display in which non-professionals can enter.

African violets will be accented in eight classes in the specimen classes for potted plants. There will also be classes for berried or fruited trees or shrubs.

Children under 14 years of age will have their chance, too. They can enter into two classifications: One on arrangements in a favorite container, and the other a bouquet arrangement for their teacher's desk.

NEW POSTAL MONEY ORDER PUNCHED CARD GOES ON SALE

A new type of postal money order, which differs in appearance from the previous flimsy type, went on sale here.

The new order is a punched card, which can be run through I.B.M. machines. It may be cashed at any bank or post office anywhere in the United States without payment of a fee. Formerly postal money orders could be cashed without fee only in the community on which they were drawn.

After cashing, the new orders will pass through the Federal Reserve Bank to the new general accounting office. The new accounting office is one of 12 regional centers replacing a former central accounting department at Asheville, N.C.

DISCOUNTS HEALTH BENEFITS FROM SUNTANNED SKIN

SPRINGFIELD, Ill.—"A suntan will give you a rugged, outdoor appearance, but do not kid yourself that you are doing it for your health," advises Dr. Roland R. Cross, director of the Department of Public Health. "Chances are that light skinned persons will be just as healthy as the rugged type who suffer perspiring days in the sun."

Man doesn't require prolonged exposure to the sun's rays to remain healthy, Dr. Cross stated. Natural sunshine or a satisfactory substitute is essential to infants and children, but many adults seem to thrive during long absences of exposure to sunshine.

Belief that a suntan promotes good health is a popular misconception, according to Dr. Cross. It will enable a person to stay in the sun without burning, but when a child is treated with sunshine for rickets, the doctor tries to prevent tanning which retards absorption of the sun's rays.

People should make special efforts to avoid severe or even slight sunburn. In addition to the extreme pain in the burned areas of the body, sunburn symptoms may include headache, nausea, high fever, rapid pulse or delirium and collapse. There have been reports of death resulting from severe sunburn.

"If you think that a deep brown color is attractive, gradual and careful tanning will do you no harm, and the periods in the open air required to acquire the tan may be beneficial. But don't expect to gain a great new feeling of well being from the exposure to the sun alone," Dr. Cross advised.

"The hand is quicker than the eye; that's why you see so many black eyes."—Frances Rodman.

"International spending has gone a long way toward bearing out the scientists who claimed the world is flat."—Shannon Fife.

There will be no M. Y. F. meeting this Sunday evening.
All present last Sunday morning enjoyed the talk of Mr. John Klassen as he demonstrated on a modern potter's wheel the making of a clay pitcher, and at the same time gave an interesting talk on God molding a man's life to be a thing of beauty and service.
Mr. Klassen is at the 4-H Camp

near Monticello during the summer to give instructions to any who wish to come. He does not work with the 4-H campers on the ground but with leaders and other adults who come for his special work.

The M. Y. F. had a very successful home-made ice cream and cake social last Saturday evening in the Community Building. They wish to express their thanks to all who helped in any way. Through the sale of ice cream and cake and donations they took in \$69.18

Part of this will go to pay one-half the fee for those attending Youth Camp this next week. At this time, five young people have registered for the Camp at East Bay: Joan and Janice McKinney; Karen Price; Patty Connelly; and Jo Kinkaid.

Rev. and Mrs. Ellinwood and Miss Betty Johnson will be on the staff. Rev. W. W. Bennett of Monticello is Dean.

The Camp opens on Sunday afternoon for registration followed by a program in the evening. It will close at 10:00 a.m. on Saturday, July 14th.

Remember the W.S.C.S. meeting at the home of Mrs. George Groves on Tuesday, July 10 at 2 p.m.

The Official Board and Church School Workers Conference met at the home of Mr. and Mrs. Fred Waller on Thursday evening, July 5th. The pot-luck supper was enjoyed by all and then the business meeting that followed saw considerable planning done for the year's work ahead. We are planning on regular monthly meeting of the Board the same as last year.
