Diploma

Dear M.F.H.S.

I'm writing this letter to say Good-Bye, not only to this school, but to the teachers and administrators some of whom I have grown to like and respect. I have learned many things in my four years here. Besides learning a little grammar, history, spanish, and typing, I have learned that there are many people who care about students and their feelings and there are many who don't. I have learned that you can't change everything you don't agree with or like, no matter how hard you try, because there is always someone a little higher above you that won't agree with you. No matter if you're right or wrong. I have learned in my four years here that there are people who won't even listen to you. They think "You're just a student, you don't know what you're talking about, so don't bother me."

I think I have also learned to accept rules, that can't be changed, even if I don't agree with them. Well, that's about all I have to say to you M.F.H.S. except,
GOOD-BYE!

I'm sure I won't miss you!
Very Sincerely Yours,
Robin Summers

Track Team

6

On May 6, I attended the Meridian track meet at Hantic. This was the first time I had ever attended a high school track meet. Most people would expect it to be long and boring. Most people think of track for sissies or a chicken sport. But track is more demanding than either basketball or football. In football for example, if you miss a block not alot of people can see it from the stands.

But if you have been messing around at practice well, when you far out in your event there is no team to cover up for you. This is really evident in the 2 mile or in the mile.

Well, back to the track meet. Maroa too 8 out of 12.
